**Reservoir Flies
UPDATE**

Cllr. Vincent Ricci, Andrew Gwynne MP, and your Labour Team are committed to keeping you updated on the flies problem around Audenshaw Reservoirs.

A PUBLIC MEETING for residents is planned where United Utilities will be present to outline the actions they intend to take this year to minimise the problem as well as to feed back on some of the research underway.

The meeting will be held at:

6.30pm on Wednesday 8th April

at RYECROFT HALL, Manchester Road, Audenshaw.

Denton's MP, **Andrew Gwynne** said: "As in previous years, United Utilities have pledged to **spray the reservoir** and **embankments** with appropriate chemicals and, where residents want it, will **spray gardens too, on request.** I hope that the ongoing research will enable United Utilities to eventually resolve this problem, and **the meeting is to update residents about what exactly is proposed by them.**"

Cllr. Vincent Ricci said: "I want United Utilities to take **full responsibility** for this ongoing problem. I will work alongside the MP and Councillors Allison Gwynne and Martin Wareing to **make sure they do.** We will continue to keep you fully updated."

**Here for you... All the time,
not just at elections.**
